

Meet pipIQ™

Your Private Intelligence Platform

pipIQ™ is a private AI solution built for small and mid-size businesses that thrive on policies, people, and processes. Unlike public AI tools that pull data from the internet and send it back out, pipIQ™ is built to be secure, simple, and business-ready.

With pipIQ™'s private-platform architecture, every piece of your company content stays secure and fully under your control. pipIQ™ gives your business a private AI trained exclusively on your policies and handbooks; nothing ever leaves your system.

AI Use Is A Hidden Risk – Here's Why.

According to a recent KPMG study (2025):

57% OF EMPLOYEES

actively conceal their AI use from employers.

44% OF U.S. WORKERS

use AI tools without company authorization.

46% HAVE UPLOADED

sensitive company data to public AI platforms.

Why choose pipIQ ?

- ✓ **Private By Design**
All processing happens in a secure, private environment, keeping data in-house for complete confidentiality and eliminating the risk of external exposure.
- ✓ **Unified And Branded Experience**
Replace multiple singular-focused tools with one streamlined, branded platform fully aligned with your policies, guidelines, and visual identity.
- ✓ **Instantly Impactful**
Embedded brain-based prompts give your team intelligent guidance instantly, with no AI expertise required.

pipIQ™ removes these hidden risks by offering a completely secure, internal solution.

Simple, Clear Pricing

- **Only \$995/month total** for your entire company (up to 1,000 employees)
